Bantug, Munoz, Nueva Ecija

### Education

#### Bachelor of Science in Information Technology

PHINMA - Araullo University

2011-2015

#### Master of Science in Cyber Security

De La Salle University

2015-2016

### TECHNICAL SKILLS

- Cybersecurity Tools: Wireshark, Kali Linux, Nmap, Metasploit, Nessus
- Networking: LAN/WAN configuration, VPN setup, Cisco routing & switching
- Operating Systems: Windows Server, Linux (Ubuntu, CentOS), macOS
- Programming & Scripting: Python, PowerShell, Bash
- Security Practices: Firewall configuration, vulnerability assessment, penetration testing
- Cloud Platforms: AWS, Microsoft Azure, Google Cloud
- Other Tools: VMware, VirtualBox, Git, Active Directory

### Work Experience

#### Department of Information and Communications Technology 2016 - 2021

Cybersecurity Intern / IT Support Specialist

- Assisted in network monitoring and threat detection using cybersecurity tools.
- Helped design and implement security policies for company systems.
- Conducted vulnerability scans and basic penetration tests.
- Provided technical support and troubleshooting for system users.
- Configured and maintained local area networks and firewall systems.

#### Palo Alto Networks 2021 -

Cyber Security Engineer to date

- Manage and configure next-generation firewalls (NGFW) and security policies for enterprise clients.
- Monitor and respond to real-time security alerts using Palo Alto Cortex XDR and SIEM tools.
- Conduct penetration testing and vulnerability scanning to identify and mitigate potential threats.
- Collaborate with global security teams to deploy Zero Trust architectures and advanced endpoint protection.
- Perform log analysis and incident response to prevent data breaches and cyberattacks.
- Provide technical documentation and reports on threat trends and mitigation strategies.

### Certifications:

- Palo Alto Networks Certified Network Security Administrator (PCNSA)
- CompTIA Security+
- Cisco Certified Network Associate (CCNA)
- Certified Ethical Hacker (CEH)
